Summary

Dhaulagiri Expedition Dhaulagiri (8167 m), means White Mountain is the 7 highest mountain in the world. It is one of the popular climbing peaks above 8000 m

Overview

Trip Introduction

The Mount Dhaulagiri Expedition (8167 m) lies Western part of the Mustang District Nepal. Dhaulagiri means White Mountain, is the seventh highest mountain in the world. It is one of the popular climbing peaks above 8000 m. Dhaulagiri expedition offers a nice trek of Dhaulagiri circuit and Annapurna region. It is an enormous Himalayan massif, located in north-central Nepal. It is the highest mountain located entirely within Nepal. Our Mount Dhaulagiri Expedition itinerary allows enough acclimatization and climbing preparation for the ascent of the Dhaulagiri peak. The Dhaulagiri, along with another eight thousand Annapurna, make Kaligandaki the deepest gorge. Himlung Himal Expedition

The Lying in the north-west of Pokhara, this peak first attracted the French expedition that came to Nepal in 1950. Led by Maurice Herzog, the mountaineers looked up at his formidable peak and decided it was impossible to climb and turned their attention to Annapurna I, which they subsequently climbed. It was the discovery of Dhaulagiri's height in 1809 that brought to light the fact that the Himalayan range of mountains was higher than the Andes in South America. At the time, the Europeans assumed Dhaulagiri was the highest mountain in the world. Dhaulagiri is also the highest point of the Gandaki river basin.

n world in 1808 m, it replaced Ecuador's Chimborazo (20561 ft) as the postulated highest mountain in the world. We provide a comprehensive service organizing all necessary permits, and climbing documentation, travelling logistics including airfares, ground transportation, porters, and other individual services required by mountaineers. Today, there are more than 6 different routes established with variation, & the possibilities of more. Amadablam Expedition has 3 Mountains in the western part of Nepal it is called Dhaulagiri, Manaslu, Annapurna 1st and many more. Here lies the youngest Mountain in the world called "Annapurna 1st". Manaslu Expedition
