Expedition Mount Thamserku/Thamserku Mt Expedition is Eastern part of the Solukhumbu District, Nepal lies in Lukla its take 5 days from Lukla to Base Camp.

Overview

Trip Introduction

Thamserku Mt Expedition is Eastern part of the Solukhumbu District, Nepal lies in Lukla its take 5 days from Lukla to Base Camp. Thamserku is the highest mountain interested clients who would like to summit a M.t Thamserku. It is best mountain to climb if you want. We will provide you warm and good hospitality. Where your climbing will be remarkable for your life time. You can find more about it in web pages. Everest Panorama trek

Thamserku is a beautiful mountain lying just east of Namche Bazaar in eastern Nepal. Connected by a ridge to Mt. Kangtenga to the east, the two peaks, rising above 6000 meters, are known as the Snow Saddle, rising between the Hinku and Khumbu valleys to a saddle-shaped summit. The journey begins with a hike from Lukla to Namche Bazaar through the commanding landscape of the stunning Khumbu region. Makalu base camp trek

We'll establish base camp at 4,750 meters, from where we'll attempt the semi-technical ascent to Thamserku's summit. Three additional camps will be set during our climb, which will involve some moderate scrambling and challenging sections of steep snow and ice. Our final camp at 6200 meters will be set on an exposed and windswept face, adding to the adrenaline as we make the final push to the summit. This is a great expedition for less experienced climbers who are preparing for the 7000 meter peaks. Ghorepani poon hill trek

Day by day itinerary
